

Assignment 3:

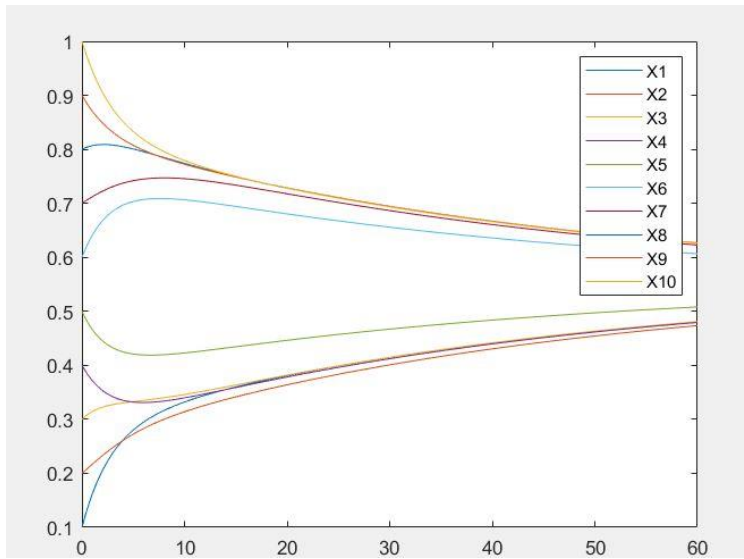

A Social Network Model for Opinion Contagion.

Assignment text:

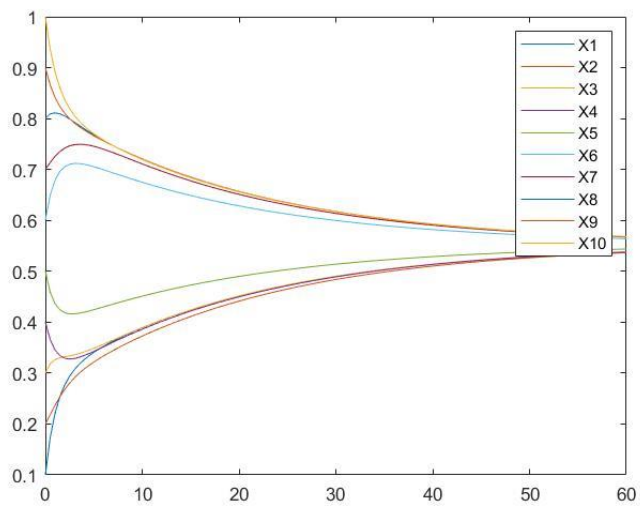

https://www.researchgate.net/publication/336826083_Assignment_3_A_Social_Network_Model_for_Opinion_Contagion

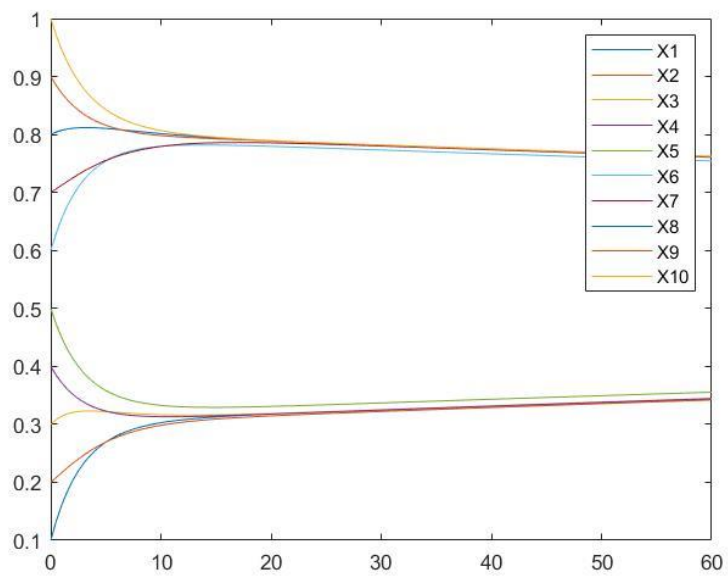

Opinion contagion in the 2 groups:

Speed factor changed to 0.55

(But) Opinions in the 2 groups stay different,
when the connections between nodes 5 and 6 moves towards 0.
